DHEERAJ GUPTA

+919311629331 guptadheeraj040@gmail.com GitHub LinkedIn Delhi, India

PROFESSIONAL SUMMARY

Third-year B.Tech Information Technology student with experience in **Full-Stack Web Development** (MERN Stack), Data Analytics, and SQL. Skilled in building scalable web applications, data analysis using Python and Power BI, and currently exploring **Machine Learning, Data Engineering**, PySpark, and AWS Cloud technologies. Passionate about solving real-world problems through data-driven solutions and continuously expanding expertise in software and data systems.

WORK EXPERIENCES

Full Stack Engineer Intern | Full-time
Decodelabs
Jun 2028 - Jul 2028
Remote • Delhi

- Completed a virtual **Full Stack Engineering program** focused on **modern web development practices**.
- Developed and integrated **frontend interfaces with backend APIs** to create complete end-to-end web applications
- Gained hands-on experience by working on real-world full-stack projects using **React.js, Node.js, Express.js, and MongoDB**.
- Improved debugging, problem-solving, and software development skills through **project-based learning**.
- Utilized **Git/GitHub** for version control and collaborative development workflows.

Technologies / Skills Used : *React.js, Node.js, Express.js, MongoDB, Git, GitHub*

EDUCATIONS

Guru Gobind Singh Indraprastha University | Delhi , India
Btech - Information Technology(IT)
2024 - 2028
cgpa : 8.3

PROJECTS

Cove – Real-Time Chat Application (MERN Stack) | Github Website

- Developed a full-stack real-time chat platform using MongoDB, Express.js, React.js, Node.js, and Socket.IO.
- Implemented one-to-one and group messaging, typing indicators, online presence, file sharing, voice notes, polls, and scheduled messages.
- Built secure JWT authentication with refresh tokens, Google OAuth, role-based admin panel, and Cloudinary media storage.
- Integrated Redux Toolkit for state management and designed a responsive UI with Tailwind CSS and Framer Motion.
- Designed scalable REST APIs and real-time communication architecture for seamless user interaction.

Technologies / Tools Used : *React, Node.js, Express, MongoDB, Tailwind CSS*

Customer Behavior Analysis | Github

- Analyzed **3,900+** customer purchase records to identify shopping trends, customer segments, and revenue patterns.
- Cleaned and transformed raw data using **Python** and **Pandas**, including missing value handling and feature engineering.
- Performed business analysis in **PostgreSQL** using SQL queries for revenue analysis, customer segmentation, and product performance.
- Built an interactive **Power BI dashboard** with KPIs, charts, and filters to visualize customer behavior and sales insights.
- Generated actionable business recommendations related to subscriptions, discounts, loyalty programs, and targeted marketing.

Technologies / Tools Used : *Python, Pandas, PostgreSQL, Power BI*

SKILLS

Programming Languages :	Python, SQL, C++, JavaScript
Frameworks & Libraries :	Pandas, NumPy, React, Node.js, Express, Tailwind CSS
Databases :	PostgreSQL, MongoDB
Tools & Platforms :	Power BI, Excel, Git, GitHub, VS Code, Jupyter Notebook, Postman
Soft Skills :	Analytical Thinking, Problem Solving, Communication, Team Collaboration, Attention to Detail
cloud :	AWS
Languages :	Hindi, English

AWARDS & ACHIEVEMENTS

- **Selected for Smart India Hackathon (SIH)** at the college level, demonstrating strong problem-solving, teamwork, and innovation skills in real-world project development.
- **Selected among top 128 students** out of **1000+** participants in **Smart Delhi Ideathon**.

CERTIFICATIONS

- **Earned 50 SQL badge** on LeetCode
- **Earned 100-day and 50-day coding streak badges** on LeetCode for consistent DSA practice and problem-solving discipline.
